Data Scientist | Web Developer

Professional Summary

Data Scientist and Web Developer proficient in the MERN stack, Python data ecosystems, and SQL. Combines full-stack engineering capabilities with statistical modeling to build data-driven applications, with a dedicated focus on open-source contributions and educational technology solutions.

Education & Certifications

- **BSc Data Science** | Miva Open University — Academic Scholarship Recipient (Expected Graduation: April 2028)
- **Accelerated End-to-End DS Workflows** | NVIDIA (RAPIDS, GPUs, and Scale)
- **Data Science Cert.** | TS Academy — Merit-based Scholarship Recipient (May 2026)
- **ALX Pathway Program** | ALX Africa (Computing, Statistics, Business, Entrepreneurship) (2025)
- **Responsive Web Design** | freeCodeCamp (2022)

Technical Skills

- **Data Science & Analytics:** Python (Pandas, NumPy, Jupyter), SQL, Exploratory Data Analysis (EDA), Descriptive Statistics, Tableau, Excel
- **Web Development:** HTML5, CSS3, JavaScript, TypeScript, React, Next.js, Node.js, Express.js, MongoDB
- **Tools & Methodology:** Git/GitHub, REST APIs, Technical Writing.

Experience

TS Academy | Student Moderator (Feb 2026 – May 2026)

- Guided and unblocked over 70+ data science students encountering complex analytical and academic hurdles.
- Orchestrated daily peer discussions and compiled structured feedback reports for the administration to optimize curriculum delivery.

Wall Management Enterprise | Technical Virtual Assistant (Mar 2023 – Dec 2025)

- Engineered and optimized data entry workflows, validating and organizing structured datasets to ensure 100% data integrity.
- Authored and structured customer-facing website content, clearly communicating core services, technical projects, and corporate updates.
- Designed standardized corporate documentation templates, establishing consistent brand assets across external communication channels.

Projects & Community Impact

Open Source Contributor | freeCodeCamp

- Refactored curriculum modules by streamlining pedagogical structures and removing advanced complexities to improve learning progression for beginners.
- Enhanced web accessibility standards by merging code changes aligned with WAI-ARIA guidelines for assistive technologies.
